To whom it may concern.

I am Chris Bose, M100 A01 instructor and course coordinator.

Mr. Hossain, V00984826 advised me that he mistakenly dis-enrolled himself from our course and needs to get back in. He will be filling out a (late) course add form and including his personal statement with the form. I looked into our course records and can report as follows.

Lecture attendance: This is impossible to verify with such large lecture classes.

Tutorial attendance: Of the 4 tutorials so far, he has attended and participated in the first three, as verified by filing exit tickets with the TA. We have that on record. Unfortunately he did not submit his exit ticket on Oct 4. However he has shown me a filled out exit ticket and claims that he left the tut before submitting in order to visit the records office. The TA cannot vouch for his attendance without the exit ticket.

Online work: Through MyLab Math he has attempted and completed two of the four assignments and quizzes so far. Records show his last activity on the site was on Sept 21. That assignment/quiz pair was due Sunday Oct 3.

I have no issue with him being re-admitted to Math 100. If you have any questions please contact me at this email, or phone x-7471

Chris
